3M IoT Platform Documentation

IoT is driving new opportunities across all industries. The 3M IoT Platform on Azure accelerates innovation by providing reusable services essential to every IoT solution. The 3M IoT Platform on Azure is enterprise ready and built to scale.

The 3M IoT Platform on Azure increases time-to-market for unique offerings that are built with a consistent device management tier that standardizes administrative, operations, and support services. The 3M IoT Platform on Azure extends Microsoft's Remote Monitoring Accelerator by adding CI/CD support, multi-tenancy, threat protection, and many key features necessary for enterprise adoption.

To learn more about how it's being used at 3M, check out the Use Cases.

3M IoT Platform on Azure

Getting Started

Welcome to the 3M IoT Platform on Azure documentation. This section provides an overview of the platform and how to get started using it and contributing to its improvement.

Content Organization

The left navigation is organized sequentially to provide a foundation for working with the platform. Use the *Content Filter...* to narrow down specific topics. Throughout this documentation you'll a Downloaded PDF to allow you to take the material offline.

The top navigation organizes content into sections as follows:

SECTION	DESCRIPTION
Getting Started	Introductory resources for those new to the platform
Use Cases	Examples of how the platform is being used at 3M.
Guides	Topics related to common questions and activities like how to manage devices.
APIs	Information about integrating the common services into custom solutions.

The *Search* box allows you to search for content across all sections.

Content Accuracy

We have taken care to ensure the accuracy of this content but mistakes happen and things change over time. See How to Improve This Documentation to help us continue to improve the content and keep it up to date.
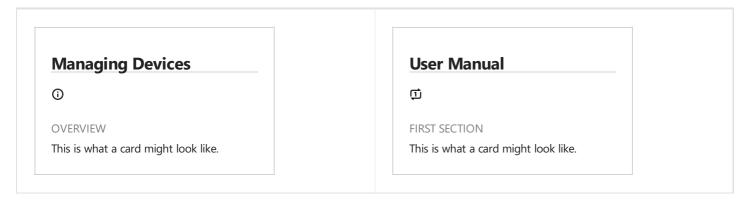

3M

TODO

- Provide a high-level overview of how 3M is using the IoT Platform
- Note: This is public content. InnerSource will have more specifics

3M IoT Platform Guides

Welcome to the public documentation on guides that cover common activities of working with the platform.

Managing Devices

3M

TODO

- List APIs with description and path
- Reference SWAGGER Files
- Add .NET projects to the *src* folder and run `docfx` to generate **REAL** *API Documentation*!
